

Cyber Security Training

Security training is designed to transfer cyber security knowledge to your staff.

Why would you benefit from Cyber Security training?

In an always evolving cyber security world you want to make sure that your staff is updated with the most recent attacks. Our training courses will provide:

- Live hacking demo
- Access to our training material (slides + pdfs)
- Access to our labs to practice attacks

Our Methodology

Proelians does not provide Cyber Security packages, Proalians delivers them. Our audience varies from non-technical to technical staff. We customise our training material to fit your requirements and needs. Additionally, our hands-on labs allow you to practice your skill in a real-world and up to date environment.

Why Proelians ?

We are not just another independent security firm. With more than 10 years of experience in Cyber security our commitment is to provide top-quality services that meet your expectations. If you are willing to try us, feel free to contact us and we will get back to you as soon as possible.

Flexible - Trusted - Secure - Unconventional
